His experience of several years teaches that promptness is the sure road to success. He can fill large orders for heavy timber or short notice; has always on hand large stocks of best Yellow Poplar of different sizes, and will have a large Planing Mill in operation in thirty days that will add to his facilities for furnishing building material with wooden buildings. REMOVAL.—The Business Office of the INTELLIGENCER has been removed to the lower floor three doors east of former quarters, Quincy street, between Main and Market, (it being the corner room next the alley,) where the proprietors will be happy to see and serve their friends and patrons.

Wanted—A Milliner at Adler's.

Thermometer Record.—The following shows the range of temperature yesterday, as observed at Silver's Drug Store, corner opposite Post Office:

8 A. M.	12 M.	8 P. M.	7 P. M.
54	58	63	73

SLIGHT RISE.—Since our last report of the stage of water in the channel (Saturday morning) there has been a slight rise in the river—the marks last evening, indicating four feet nine inches. The Parkersburg packets are making their regular trips, we believe.

CITY COUNCIL.—Regular monthly meeting of the City Council to-night. We are not aware of any business of special interest to come up, unless they conclude to do something in the direction of putting the city in good sanitary condition. That is badly needed, and because it is, nothing will probably be done.

FATAL ACCIDENT AT GREEN CITY, PA.—Mr. James Wharry, of Moundville, W. Va., died at the above place on Sunday evening the 8th inst., from the effect of injuries produced by an explosion of gas at one of the oil wells, the evening previous. He was about 39 years of age, and was highly esteemed by all who knew him.

KILLED ON THE RAILROAD.—Sunday morning, a locomotive drawing a train on the Baltimore & Ohio road, collided with a cow belonging to a citizen of the Eighth Ward. The result was most disastrous to Boosy, as she was almost instantly reduced to pieces suitable for broiling, frying or boiling. The locomotive sustained no injury, strange to say.

COUNT OF APPEALS.—This Court resumed its sittings yesterday morning at 9 o'clock, pursuant to adjournment. On motion, E. C. Freil was admitted to practice. The case of S. H. Morris, appellee, vs Felix Beatty, et al., appellants, from Wetzel county, was argued by Fleming for appellants, and Clarke for appellee, and was submitted. Adjourned until 9 o'clock this morning.

POLICE COURT.—Only one case before the police court, yesterday morning. Charles Schallus was strolling through the Cemetery, Sunday afternoon, and reaching the lot on which his grandfather is buried, he plucked two or three roses from a bush gentle hands had planted to bloom above the remains of the departed. An officer happened to be in the vicinity and immediately took Schallus into custody. Yesterday morning he was arraigned for the offence (it was one under the circumstances) and was fined one dollar and costs.

COUNTY COURT.—The following is a synopsis of the business transacted in this court, yesterday afternoon: The estate of Samuel B. Bushfield, deceased, was committed to the Sheriff for settlement. In the case of Kurtz vs. Albert, et al., a decree confirming sale reported was granted. Beck of Hamilton (G. W.)—motion to set aside an attachment, (made on a former day of the term,) was overruled. Portney vs. Newberger—motion to set aside the judgment entered on a former day of the term, was sustained. Plea of non assumpsit and set off was made by the defendant, and a jury having been demanded, the cause was continued. Alderson vs. Ferrell, et al.—demurrer to the declaration argued on a previous day of the term, was overruled, and the case continued. Layton vs. McVay, et al.—motion to refer report back to a commissioner, was sustained. Adjourned until 3 P. M. to-day.

CONNECTION.—A notice of the Baron Manufacturing Company of Belleaire in our columns yesterday morning, appears to have contained several inaccuracies. Mr. Baron, the Superintendent, called on us this evening, and from his statements it seems that our informant got somewhat "mired up" in his data. Instead of fifteen millions of can tops, it should have been one million of jar caps; and the total product of lanterns was eighty-two thousand, or about six hundred gross, instead of two thousand gross. All the manufacturers in the United States did not produce the absurd number credited to this concern. Further, Mr. Baron informs us that he was not the sole inventor of the lantern; but that it was the joint invention of himself and brother, Alfred C. Baron, who with his own hands perfected nearly all the machinery necessary to produce the lantern. We make the above corrections at the request of Mr. Baron, who was in no way responsible for the article of yesterday.

FOURTH FROM JUSTICE.—Charles Fisher, of the 8th ward, went home drunk Sunday night, and raised a row with his wife. The shrieks of the woman and her cries of murder, attracted a crowd promptly, and while some one went for an officer to arrest Fisher he made his escape into Ohio. A warrant was issued, yesterday, for his arrest, but he had kept La Belle Riviere between himself and justice, down to a late hour last night. A man who will whip his wife ought to be subject to arrest and imprisonment, no matter where he may be found. State lines should prove no bar to the bringing of such fellows to justice.

WATCH STOLEN AND RECOVERED.—Charles A. Woodward, supervisor of trains on the 4th division of the Baltimore & Ohio road, was so unfortunate as to have his elegant gold watch and chain stolen from his room in Cameron, Friday night. Saturday morning, Mr. W. started early on the hunt for his missing chronometer and the thief, and was fortunate enough to get his hands on the latter at Mannington, sometime in the afternoon of the same day. In escorting the thief to a magistrate's office, a bridge over a small stream had to be crossed. When about midway of the bridge the prisoner was seen to throw the watch and chain into the stream below. He was taken to the justice's office, however, and after a full hearing, was committed to jail for trial. The fellow gave Charles Snyder as his name.

ORPHANS' FESTIVAL.—The attendance at Washington Hall last evening was quite large, and the demand for the delicious ice cream and strawberries, and other delicacies, was correspondingly heavy. The festival is held under the auspices of the Sisters of St. Joseph for the benefit of the orphans under their care. A large number of ladies were engaged all yesterday in decorating the hall and making the necessary preparations for the occasion, and when the doors were thrown open last evening, the scene presented was one of beauty. The old hall was fairly resplendent with its adornings, and the many brilliant flowers added no little to its attractions. The festival is to be continued to-night, and we hope will be yet more largely patronized than on the opening evening.

At other offices, one cent for each half ounce or fraction thereof. Printed Matter.—One cent for each two ounces or fraction thereof. When any of the above matter is mailed wholly unpaid, and by inadvertence, reaches its destination, double rates should be charged and collected.—Post Office Gazette.

FESTIVAL TO-MORROW EVENING.—The congregation worshipping in Zane Street M. E. Church will hold a festival to-morrow evening, and the fact is announced in another column of this morning's INTELLIGENCER. Zane street people have a good reputation in getting up affairs of this kind, and on the strength of their past history in this particular, we predict signal success on the occasion now so near at hand. We hope their liberal preparations for to-morrow evening will be duly appreciated, and that a handsome sum will be added to the treasury of the Church. See advertisement.

THIRD WARD SCHOOL PICNIC.—The steamer Science has been refitted and repaired, and put in prime condition for the excursion to Cresap's Grove, to-morrow, Wednesday. Every needed arrangement has been made to render the occasion a pleasurable one to all who attend. The boat will leave the wharf at foot of Monroe street, at 7 o'clock, A. M.; returning arrive at Wheeling at 7 o'clock, P. M. Bring your tickets and fill your baskets to-day, and be at the boat promptly at 7 o'clock to-morrow morning.

MUSICAL INSTRUMENTS.—Nowhere do we ever see a finer and better stock of Pianos and Organs than at Shelby's Music Store, Washington Hall, or hear better terms offered to buyers than there. Here you find the Weber, Chickering, Sheld, Hardman and other famous, the famous Eureka Cabinet Organs, the Pipe Organs, various second hand instruments of all kinds and makes. \$5, \$10 or almost any larger monthly sum will procure an instrument there at lower prices than elsewhere and Mr. Shelby's known experience in the business enables him to guarantee the best instruments for the least money. Call at Shelby's and see for yourself.

THE FACT THAT SUGAR OF LEAD AND SULPHUR HAIR REFINERS have produced many cases of blindness, and other disorders consequent on their use, is the best argument why Nattans' Crystal Discovery, which is entirely harmless, should be used. At any rate it will repay you to try it. Get your Druggist to get it for you.

DOCTOR PIERCE'S

Golden Medical Discovery

In the wonderful medicine to which the attention of the public has been called, the discoverer has combined in harmony more of Nature's most sovereign curative properties, which God has bestowed into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which have been found to cure. In the case of Rheumatism, Severe Coughs, and the early stages of Consumption, it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the various diseases, it strengthens the system and purifies the blood. By its greatest therapeutic blood purifying properties, it cures all skin diseases, from the worst Scrofula to a common Blotch, Pimple, or Eruption. Mercurial diseases, Mineral poisons, and their effects, are eradicated, and vigorous health and sound constitution established. Erysipelas, Salt Rheum, Kever Sores, Scaly or Itchy Skin, in short, all the numerous diseases caused by bad blood, are conquered by this powerful purifying and invigorating medicine. If you feel dull, drooping, debilitated, have a low color of skin, or a yellowish brown spots on face or body, freckles, head-ache or dizziness, bad taste in mouth, internal heat or chills, alternating with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or Biliousness. In many cases of Liver Complaint, it is the only remedy. It cures all the ailments of the system, and is the best of all. Habitual Constipation of the bowels is a never failing remedy. It is a safe and reliable medicine for all the ailments of the system. The proprietor of this medicine is a doctor of medicine, and has a large number of testimonials from all parts of the world. Send your address for a pamphlet.
